Windows 2000/Windows XP/Windows Vista/Windows 7/Windows 8/MAC

Setting up the Mouse

Plug the USB plug into an available USB port on your computer. Windows automatically finds your mouse and installs the appropriate driver.

Precautions

- A. Avoid using the mouse on surfaces of low surface finish such as clothing, newspapers, carpets, hardwoods, etc.
- B. Do not bump mouse.
- C. The mouse should not be moved in the box.
- D. Do not use the mouse in high temperature and strong light.
- E. Do not put the mouse into the liquid.
- F. Both light-emitting diode and light-sensitive three-tube in the optical mouse are afraid of being vibrated accessories,please avoid pulling the mouse in a strong way.
- G. Care should be taken to keep the plate clean and photosensitive state is good, to avoid dust attached to the light-emitting diodes and light-sensitive three-tube, and block the light received, affecting the normal use.
- H. Do not over-force the mouse button and avoid breaking the mouse, to avoid damage to the elastic switch or other components.
